**Commission Arrangement**

The portrait commences on an agreed schedule with the receipt of a signed agreement about the scope of the portrait and 50% of the total fee, (non-refundable). Mid-way through and near completion, I invite the client to view the work in progress or I send photos for client approval to complete the portrait. The balance of the fee is due upon my completion of the portrait.

More than art, a portrait in pastels is part of a family's heritage that will endure for generations.
